COVID-19 Response Range

Products and guidance on managing facilities
during the Coronavirus pandemic in 2020.

Introduction

COVID-19 (Coronavirus) has become a global pandemic in 2020 and governments, businesses and members of the public are having to take unprecedented steps to protect themselves and others. Whilst many countries are easing their lockdowns, normal socialising is strictly prohibited. Social distancing and contamination control are effective ways to reduce the risk of the virus spreading. This range of social distancing and hygiene products from COBA are designed to help businesses operate efficiently and safely.

Our History

COBA has been providing effective, and innovative, matting and flooring solutions for over 40 years. In this time, we have expanded and refined a range of dependable products, ideal for facilities management.

Our Passion

Floor mats are an often-overlooked item, but if the right product is applied first time, the benefits can be felt further down the line – from initial cost savings through to reduced cleaning and replacement expense.

Our Reach

As part of the international COBA group, which has localised facilities in South Africa, UK and Europe, our customers have the reassurance that they are dealing with a professional, global name with a long-established heritage in the floor matting industry.

Service

Our experienced team of matting experts are free and available for site survey visits around South Africa. We will work with you to determine the best product solution for your environment, so that your investment is rewarded.

Solutions

Our product range offers an option for every budget and situation. It broadly spans loose lay entrance mats and fitted entrance systems, non-slip mats for bar and kitchen areas, to comfort mats for Reception staff and other personnel.

Next Day Delivery

We are able to offer next day delivery on stock items – please request when placing your order. Standard delivery is 2-3 working days.

The Issues

Social distancing

Visual aids are key to communicate to visitors and employees your specific guidance around social distancing. The South African government's guidance on social distancing remains 1.5 metres wherever possible. For businesses that can't operate with 1.5 metres such as pubs and hairdressers, we have a range of smaller mats, including directional signs and other instructions around enhanced hygiene such as hand sanitisation.

Fatigue

One thing that hasn't changed since the COVID-19 pandemic reached South Africa, is that key workers across the country in supermarkets, warehouses, and manufacturing locations have stoically been attending work. Issues from standing fatigue and health ailments caused by prolonged standing haven't gone away.

Cross-contamination

There has been a huge campaign of public awareness since the pandemic began and so everyone is aware the risks posed by physical contact with items that may be carrying viruses. There is perhaps less awareness around viruses and other germs being transported on people's footwear between different buildings and departments.

Due to the COVID-19 pandemic, contamination control is more important now than ever before. Contamination between buildings and rooms occurs at the threshold, and all doorways have one thing in common, a doormat. Our range of tack mats and entrance mats are designed to improve hygiene and reduce walked in bacteria and other particles.

Social Distancing Floor Mats

Loose lay floor mats to promote social distancing, and health and hygiene awareness

- Communicate hygiene and social distancing rules to your staff or customers to limit the spread of Coronavirus.
- Ideal for all public buildings including retail, hospitality, healthcare, supermarkets, and offices.
- A cost effective and durable way to demonstrate that your business is 'COVID-19 Secure'.
- Printed digitally for superb colour reproduction and definition.
- Low profile borders to reduce the risk of trips.
- Machine washable at 30°C.
- Mats stay in place thanks to vinyl backing, but can also be relocated and washed unlike floor stickers.
- Superior Nitrile Rubber backing with Twist Pile finish available for high traffic areas.
- PVC backing is available in both Velour and Twist Pile finish, and the unedged option has a Velour finish.
- Delivery in 2 weeks.
- Product Height: +/- 6 mm.

Branded Social Distancing Floor Mats

Branded floor mats to promote social distancing available in standard and bespoke sizes

- Communicate social distancing rules to your staff or customers to reduce coronavirus spread.
- Mats can be designed to include your logo and match your brand guidelines – creating a better experience for staff and customers.
- Cost effective and durable way to demonstrate your commitment to health and safety.
- Printed digitally for superb colour reproduction and definition.
- Low profile borders to reduce the risk of trips.
- Machine washable at 30°C.
- Mats stay in place thanks to vinyl backing, but can also be relocated and washed unlike floor stickers.
- Product Height: 6 mm.

Bespoke sizes

SDM000005

Choose from standard designs or create your own to compliment your brand. Adding your logo creates a strong visual impact while showing customers you care.

Business Being COVID-19 Secure

Many businesses, such as supermarkets, manufacturers and logistics providers have remained open throughout the pandemic to serve key workers and key industries, and therefore have had to learn how to mitigate risk and meet government recommendations around health and safety as they go. Other industries such as hospitality and retail, having been closed for several months, are also now determining what their 'new normal' will look like. In either case we are in uncharted territory for most people, and are learning as we go.

Enforcing Social Distancing

Whether it's general messaging at the door, one way systems, or reminders to stay hygienic, businesses are thinking about how people move around their workplaces in more detail than ever before. Every business and every building will have its own specific needs, but using frequent visual reminders such as

floor tape, floor mats, and signage, is the most effective way to communicate your rules when there may not be a member of staff available. Mats are great because they can be picked up and moved around.

Reducing cross-contamination

Most responsible people now know to wash or sanitise their hands, not touch their face, and not touch things they don't need to. However, in nearly all businesses there is a level of human interaction required to communicate. SafeScreen Pro offers a clear barrier that can protect people at their desk or reception. Also, simply moving around a building or site also presents the hidden danger of contamination from footwear. Viruses fall to the floor and can be tracked around by people walking. With a disinfectant mat at key thresholds this form of contamination can be stopped dead.

Social Distancing Scatter Mats for Schools

Loose lay floor mats to promote social distancing in education

- Communicate social distancing rules to your pupils to reduce risk of coronavirus spread.
- Ideal for nurseries, playgroups and primary schools.
- Help children maintain social distancing quickly and easily during reading time, assemblies or whilst cueing.
- Cost effective and durable way to demonstrate social distancing measures.
- Available in packs of 8 scatter mats for classrooms.
- Printed digitally for superb colour reproduction and a bright appearance that enhances the classroom.
- Low profile borders to reduce the risk of trips.
- Machine washable at 30°C.
- Mats stay in place thanks to vinyl backing, but can also be relocated and washed unlike floor stickers.
- Product Height: 6 mm.

Education

Being COVID-19 Secure

With schools already reopen for some pupils and more due to return soon, social distancing rules will need to be followed for the safety of the children, their teachers, and the community. This is a big challenge for school staff, especially those in early years education.

The unprecedented circumstances we find ourselves in are a challenge for everyone. Even more for all those in schools and nurseries, as it is vital to communicate the importance of staying apart to children in addition to the pressures of the regular curriculum.

A lot of adults struggle with the advice given by scientists and the government and are not always sure what is the best way to deal with a situation. So how can young people be expected to understand and cope with this in order to be kept as safe as possible?

It is not only the classroom and the playground but also drop off and pick up times, lunch, and the handling of equipment has to be taken into consideration.

Hygiene and distancing

New routines have to be established, washing hands more often, disinfecting surfaces and children not sitting or standing as close to their friends as they might like. This is a very big ask for all young people. Smaller children may struggle to understand the seriousness of the situation, and teenagers, who by nature are more likely to test rules and boundaries.

Visuals help understanding and retention

We all know the saying – a picture paints a thousand words. And it is true, particularly when it comes to remembering advice when surrounded by distractions.

This starts with easy to apply and highly visible segmentation in drop off zones and in the playground, which can be achieved by using self-adhesive tapes or line making paint to highlight spaces for different groups and distances that should be kept in different colours.

Social distancing help for little people

Clear and easy to understand messaging is provided with our social distancing mats especially designed for schools, colleges and universities. They are easy to lay out, stay in place but can be relocated with ease. The social distancing floor mats can be machine washed to keep their appealing look and their important message visible over time, unlike than floor stickers that may deteriorate and need to be replaced after time. For small children we have smaller mats with cute animal motives to mark areas of personal play space in nursery or classrooms.

COBATape for Social Distancing

Clearly define areas to promote social distancing with floor tape

- Communicate social distancing rules to your staff or customers to reduce coronavirus spread.
- Ideal for all public buildings including hospitals, supermarkets, and offices, as well as factories and industrial settings.
- Cost effective and durable way to demonstrate that you take health and safety seriously.
- Self-adhesive backed vinyl floor tape quickly marks lines on floors.
- Available in a number of colours, with plain and hazard striped options available to increase visibility further.
- For pedestrian use only.
- Clean surface prior to adhesion.

Hygimat

A revolutionary hygienic anti-fatigue mat

- Improve feeling of comfort and energy whilst standing at work.
- Ideal for any workplace where hygiene is important e.g. healthcare, food manufacturing, catering, hospitality, clean rooms or food retail.
- Made from a revolutionary 'gel foam' material that combines the best in durability and comfort.
- Material also has anti-microbial properties
- Closed cell construction means that no liquids can penetrate the mat and reduce performance.
- Version with holes is ideal for wet workplaces in need of drainage.
- Oil resistant.
- Easily cleaned – can be cleaned with detergent or can be steam sterilised.
- Fire tested to BS EN 13501-1 and slip tested to DIN 51130.
- Material: Rubberised Gel Foam
- Product Height: 17 mm \pm 1 mm

First-Step

The first step to contamination control

- A hygienic pad of peel-off, disposable sheets, to protect against bacteria, mould and mildew.
- The 'tacky' sheets capture dirt and dust from footwear and wheeled equipment for contamination control.
- When the top sheet becomes soiled, simply peel off to reveal a clean layer.
- Comes with self-adhesive backing to keep the mat in place.
- Ideal for hospitals, clean rooms, general industrial environments, and any other area where hygiene is an important factor.
- Product Height: 1.5 mm

Size	White	Blue

Elimination of bacteria

Cleanliness on a microbial level

Prevent the spread of walked in bacteria, viruses and infectious microorganisms.

Entra-Clean HygienePlus

The washable doormat that actively kills germs

- Removes visible dirt and kills invisible microbes.
- HygienePlus means the mat is treated with the EU-registered biocide, BI-OME registered with OEKO-TEX® an antimicrobial and virus reducing technology. BI-OME works by effectively killing bacteria when contact is made with the mat.
- Although the treatment is a highly effective antimicrobial agent, it does not cause any skin irritations.
- A new concept in entrance matting.
- Improve floor level hygiene around your business – important whilst fighting Covid-19 and beyond.
- More sustainable – less frequent washing required, and on lower temperatures.
- Free of metals.
- Fully machine washable – with no reduction in active cleaning power for the life of the mat.
- Suitable for all facilities, in particular offices, hotels and leisure, retirement homes and healthcare settings.
- Reduces annoying odours caused by bacteria and fungi.

Entra-Clean HygienePlus

A Revolution in Floor-Level Cleanliness

COBA Europe is proud to present Entra-Clean **HygienePlus** - our first doormat with active germ-killing technology built-in. A ground-breaking new antimicrobial treatment makes this product much more than simply another entrance mat.

How does the new Entra-Clean Hygiene+ work?

Hygiene+ is a game changer. In addition to the high quality materials and construction, Entra-Clean Hygiene+ is treated with BI-OME, an antimicrobial and virus reducing technology. Even if you are not actively cleaning, the doormat remains clean on microbial level and the technology remains active throughout the lifespan of the mat.

What is BI-OME treatment?

BI-OME is a biocide agent that has a durable viral reducing effect on surfaces such as entrance mats. The treatment with BI-OME can reduce the viral activity of enveloped viruses in a time span of 2 hours, while the half life (time it takes for 50% of the viruses not to become infectious) is about 4 hours for untreated surfaces.

What happens if the doormat is cleaned or machine washed?

You can clean Entra-Clean Hygiene+ like any other doormat, you can even machine wash it. The treatment with BI-OME stays on the fibres and remains active, this means you can wash it on lower temperatures to save energy and still have a doormat that is clean on microbial levels.

BI-OME is a registered and tested treatment

The **BI-OME** treatment is registered with **OEKO-TEX®** to guarantee maximum consumer safety and BPR (PT2, PT7, PT9) registered with ECHA (European Chemicals Agency).

Benefits of a Hygiene+ treated doormat:

- Elimination of bacteria
- Cleanliness on a microbial level
- Reduced odour
- Possible reduction of viral activity of enveloped viruses
- Less water consumption, less frequent washing required
- Energy saving by washing on low temperatures
- Does not cause skin irritation
- Free of metals
- Permanent technology

Other products available with HygienePlus treatment

The new BI-OME treatment technology is also available on our **Promomat** and **Cosmo** doormats. Minimum order quantities apply – please ask for details.

COBA Care Disinfectant Boot Bath
Industrial grade hygiene mat that reduces footwear contamination, ideal to support COVID-19 protection

- Flexible natural rubber nodules deliver excellent dirt scraping and trapping action, while the disinfectant solution cleans and sanitises footwear.
- 100% Recycled rubber.
- Loose lay on level surface, no installation necessary.
- Fill base with COBA Care Disinfectant Solution.
- Improves hygiene and contamination control by cleaning the soles of shoes and boots.
- Suitable for industrial environments where hygiene is important e.g. mining, construction, engineering and farming.
- Slip-resistant base, with bevelled edges, to help retain position and reduce tripping hazards.
- Combine with an absorbent mat to dry footwear when stepping out.
- Material: Recycled Rubber.
- Product Height: 55 mm.
- Inside Tray Depth: 44 mm.

Use in conjunction with a COBAwash®, Wash & Clean, Microfibre Doormat or the Social Distancing Floor Mat.

Mat Size	Part Code	Weight	Disinfectant
810 mm x 975 mm	BOOT-819950	14 kg	up to 7.3 litres

Fill base with liquid disinfectant. • Step in to scrape and sanitise. • Specially designed nodules scrape dirt and allow footwear to immerse in disinfectant. • Combine with an absorbent mat to dry footwear of excess liquid.

COBA Care Disinfectant Shoe Bath

The hygienic mat that reduces footwear contamination, ideal to support COVID-19 protection

- Flexible natural rubber nodules deliver excellent dirt scraping and trapping action, while the disinfectant solution cleans and sanitises footwear.

COBA Care Disinfectant Solution

CaterQAC, a quaternary ammonium based disinfectant, is highly recommended for use against Covid-19

- Ideal disinfectant solution for use with disinfectant mats, to sanitise footwear.
 - Application for disinfectant mats: • Add recommended amount to the mat basin. Step onto the mat, covering base of footwear in dilution. Gently scrape and sanitise by wiping soles on the mat surface. Renew the solution when visibly dirty.
 - Use with COBA Disinfectant Mat or Fingertip Disinfectant Mat
 - For use on all surfaces, in all environments.
 - Food approved – SANS 1828.
 - PH in dilution: 10.5 +/- 0.5.
 - Active ingredient: Di-n-decyl dimethyl ammonium chloride.
 - Avoid contact with skin and eyes (see product label for further precautions).
 - Strength designation: 4.6%.
 - COBA products are REACH compliant.
- Store below 30°C.

Moisture Control Mat

The perfect walk-off
for Disinfectant Mats

Microfibre Doormat

Washable doormat with super absorbency and microfibre technology

- Hygienic microfibre technology with flexible, ultra-fine fibres provide deep-cleaning action.
- Effectively penetrates those hard to reach treads on footwear. Friction from the fibres generates a static charge that attracts and traps dust/debris.
- Effectively penetrates those hard to reach treads on footwear and wheeled trollies.
- Superior 'brushing and wiping' with 'rapid dry' properties that outperform cotton.
- Luxuriously soft pile that keeps entrances looking smart, stylish and free from lint.
- Environmentally-friendly – does not require chemical pre-treatment or washing detergents.
- Material: Microfibre
- Product Height: 8 mm
